

PUBLIC MEETING

Please join us for a public meeting.

The City of Jersey Village will host a town hall public meeting on June 27, 2017, to encourage public participation and feedback in the **City of Jersey Village Long-term Flood Recovery Plan**.

The study team is now concluding Phase 3 of the Long-term Flood Recovery Plan, and you and members of your community are invited to review the findings of this study effort. The planning process has been delivered in three phases, and the community has been invited to attend a public meeting during each study phase:

- Phase 1: Data Collection and Preliminary Assessment (September – October 2016)
- Phase 2: Technical Analysis and Development of Alternatives (October 2016 – March 2017)
- Phase 3: Preferred Alternative Selection and Finalization (March – June 2017)

Phase 1 included a public scoping meeting on October 18, 2016, data collection from public agencies, a topographic survey of homes, and a questionnaire mailed to 2,437 properties in Jersey Village requesting input on flooding observed by local residents. Phase 2 included a Rapid Assessment inventory of structures in the floodplain, hydrologic and hydraulic modeling, and structural and non-structural alternatives development and analysis, as well as economic, environmental, and social assessments. A Phase 2 public meeting was held on March 23, 2017, to update the public on study progress and receive input regarding the work accomplished during Phase 2. During Phase 3, the Long-term Flood Recovery Plan study team used findings and public input from Phase 2 to identify a hydraulically, economically, environmentally, and socially feasible Long-term Flood Recovery Plan for the City of Jersey Village. The public is invited to attend the June 27, 2017, public meeting to review the recommended alternatives, financing plan, and environmental findings that comprise this plan.

The Phase 3 public meeting will be held on the following date at the following location:

Tuesday, June 27, 2017
7:00 p.m. to 9:00 p.m.
Jersey Village Civic Center
16327 Lakeview Dr.
Jersey Village, TX 77040

The public meeting will begin with a formal presentation by Dannenbaum Engineering Corporation about the Long-term Flood Recovery Plan at 7 p.m. Following the formal presentation, a brief question and answer session will occur. Verbal and written comments will be taken during the meeting until 9 p.m. A time limit will be imposed on verbal questions and comments, as necessary. Informational displays will be available for public viewing, and study team representatives will be available at the meeting to provide information and answer questions.

Comments will be accepted at the public meetings and through the conclusion of the study. Please note, all comments should be submitted or postmarked by **July 12, 2017**, to be considered in Phase 3 of the study. Please provide your name and address on your comment form, letter, or email. Those

who are unable to attend the public meeting may submit written comments via mail or email. Submit comments to:

**Long-term Flood Recovery Plan
402 Teetshorn Street
Houston, Texas 77009**

or

JVfloodrecovery@crouchenvironmental.com.
