## MAYOR'S LETTER APRIL 2012

### ANOTHER ROUND OF CONSTRUCTION

If you haven't seen or heard by now, construction crews are back in the city following the City Council's decision to continue our street and utility renovation program. This is phase three of the process to replace most of the city's streets and utilities that were at least 40 years old. A build-up of the city's financial reserves allows the city to contract for this work without selling bonds and without going into debt.

The general schedule is as follows:

- 1) Acapulco – now thru mid –May
- 2) Carlsbad – mid-May thru early July
- 3) St. Helier - July thru August
- 4) Delozier/St. John Court – August thru September
- 5) Juneau – late September thru mid-November
- 6) Congo – November thru December
- 7) Singapore – January 2013
- 8) Welwyn – February
- 9) Yampa Lane – February thru mid-March
- 10) Mauna Loa – mid-March thru early April
- 11) Tahoe – April
- 12) Capri – May thru June

It is important to recognize that this schedule will most certainly change over the course of the next 15 months. Weather, issues with existing water lines, scheduling of detours and other issues will impact the progress of the construction projects.

While we will all benefit from the new streets and utilities, it is important to keep in mind that construction is a dirty, inconvenient process. There will be dirt and mud in the streets, detours affecting travel in the city, blocked driveways, water cutoffs and general chaos while the construction is ongoing. We ask for your patience throughout the process. When it is all completed, you will be driving on brand new streets with no potholes. All the mess, confusion and inconvenience of the previous months will soon be forgotten.
